AMAN ANKIT

PROFILE

As an accomplished web developer with six years of professional experience, I possess a robust and diverse skill set in web development, which includes expertise in cutting-edge technologies and a proven track record of delivering exceptional web solutions.

My proficiency lies in designing and developing responsive, scalable, and high-performance web applications using HTML, CSS, JavaScript, and a variety of front-end frameworks, including React.js. I have a deep understanding of back-end technologies, with hands-on experience in Express.js, Laravel, Codeigniter, PHP, and Node.js, enabling me to craft full-stack solutions that meet both user and business needs.

One of my standout strengths is my extensive experience in API development across a wide spectrum of projects. I've successfully designed, implemented, and maintained APIs for various applications, ensuring seamless communication between different components and platforms.

In addition to my technical skills, I have a proven ability to solve complex problems and work collaboratively with cross-functional teams, resulting in the timely delivery of high-quality work. My adaptability and commitment to staying current with the latest industry trends have enabled me to consistently deliver cutting-edge web solutions.

Overall, my career as a web developer has equipped me with the skills, knowledge, and passion required to tackle diverse web development challenges and deliver exceptional results.

EXPERIENCE

Techmistri Global Services PVT LTD, Patna – Developer

APRIL 2018 – MAY 2020

I played a pivotal role within a dynamic three-person team, focusing on the optimization of WordPress websites. My responsibilities included the meticulous enhancement of website speed, the implementation of robust security measures, and the strategic implementation of Search Engine Optimization (SEO) techniques

to improve online visibility. During my tenure, I gained proficiency in navigating various WordPress themes and plugins, becoming a skilled WordPress developer. This experience not only deepened my understanding of web development processes and technologies but also underscored my capacity to excel within collaborative team environments, delivering optimized WordPress solutions that exceeded client expectations and industry standards.

Vayati Web Solutions LLP, Patna – *Developer*

JUNE 2020 – SEPTEMBER 2022

My experience as a backend developer has provided me with in-depth expertise in the core features of Express.js, encompassing routing, middleware, and templating engines. Leveraging this knowledge, I've consistently delivered robust and scalable web applications that cater to diverse client needs. My proficiency extends to working with diverse databases, including MongoDB and MySQL, and I've adeptly employed ORM libraries such as Mongoose and Sequelize to facilitate seamless interactions with these data stores. Moreover, I've seamlessly integrated third-party services, such as payment gateways and social media platforms, into my applications utilizing Express.js middleware, demonstrating my versatility in crafting comprehensive and feature-rich web solutions.

Blue Brain Technologies PVT LTD, Noida – *Senior Developer*

MARCH 2023 – PRESENT

In my current capacity as a team leader, I am actively guiding a team of 6 developers in delivering a diverse range of projects. This role involves overseeing projects that harness the power of the MERN stack, comprising MongoDB, Express.js, React.js, and Node.js, to create dynamic and responsive web applications. Additionally, I am leading projects that rely on PHP-based technologies, specifically Laravel and CodeIgniter, to develop robust server-side functionalities. This dual proficiency allows us to tailor our solutions precisely to the unique requirements of each project, consistently exceeding client expectations and setting industry benchmarks.
